re: FOIA Number 05-RIN-00408-96
File/Site/Project: Pierce Waste Oil Services
Springfield, IL.

SUPERFUND PROGRAM
MANAGEMENT BRANCH

Dear Mr. Vlcek,

Nichols Aluminum Davenport ("NAD") and Homeshield Fabricated Products ("HFP") (collectively the "Respondents") hereby submit this response to the Environmental Protection Agency's ("EPA's") information request (the "Request") addressed to "Nichols Homeshield" and Dated January 26, 1996 for the Pierce Waste Oil Superfund site ("the site").

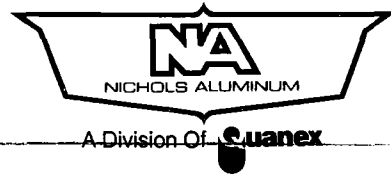

NAD operates the facility at 1725 Rockingham Road in Davenport, Iowa that was the original recipient of the Request. HFP is an affiliated business. The results of my investigation indicate that NAD and HFP each used the services of Moreco Energy, Inc. Both NAD and HFP are operating units of Quanex Corporation. The Request does not identify any other affiliate of Quanex as being connected to the Site. Activities at all other Quanex affiliates and facilities therefore are not addressed herein because they are irrelevant to the Request.

Pursuant to my telephone conversation of February 7th with Mr. Fred Gage, this response is limited to the time period of 1970-90. To the best of my knowledge and belief the responses are true, accurate, and complete. All responses to the Request are based on my personal knowledge, the records attached in Appendixes A-C, and interviews with the following persons.

Mr. David Franklin
Mr. David Itken
Mr. Vernard Slane
Mr. John Wilson
Mr. Jerold "Buzz" Barzee

Respondents object, however, to the Agency's assertions that they are under a continuing duty to supplement their answers. CERCLA section 104.(e) does not confer authority upon EPA to impose any such obligation.

Furthermore, Respondents object to EPA's refusal to provide them with access to documents already in the Agency's possession that evidence any link between the Respondents and the Site. Ignoring Region V's past practices in issuing Superfund

5/10/96

information requests as well as the letter and spirit of the Freedom of Information Act, this refusal has deprived Respondents of an efficient means of focusing their internal investigation. An Agency policy that keeps the regulated community in the dark will not result in a Superfund that is faster, fairer and more efficient.

Each of the Agency's specific request and a separate response thereto is set out in the attachments. The attachments and accompanying exhibits are hereby part of Respondents' response to the Request.

Sincerely,

NICHOLS ALUMINUM

Gary M. Stimpson
Group Environmental Administrator
